CORE COMPETENCIES

Technology Leadership Leading engineering teams, setting cloud strategy, interim head of GCP Engineering at Deloitte	Cloud Architecture GCP, Azure, AWS — multi-cloud design, landing zones, hybrid cloud, enterprise-scale IaC	Programme Delivery End-to-end delivery of complex cloud transformation and managed services programmes
DevOps & Automation CI/CD pipelines, GitHub Actions, Azure DevOps, Terraform, reusable automation frameworks	Stakeholder Management Trusted advisor to client C-suite; managing expectations across global, cross-functional teams	Commercial Acumen Delivering cost reduction, resource optimisation, and business value from technology investment
People & Team Development Mentoring engineers, growing team capability, supporting apprenticeship programmes since 2017	Security & Compliance Okta, IAM, Workload Identity Federation, Trend Micro, ITIL V4, cloud security standards	Governance & Process ITSM (ServiceNow), SLA management, School Governor, Scrum Master, audit-ready delivery

CAREER HISTORY

Senior Manager – Solutions | previously Manager & Senior Consultant
Deloitte MCS | Cloud Managed Services

Oct 2020 – Present

LEADERSHIP & STRATEGIC IMPACT

- Appointed interim **Head of GCP Engineering** within Deloitte Cloud Managed Services — leading the engineering team, setting technical direction, and overseeing delivery quality across all GCP workstreams.

- Led a smooth transition of GCP Engineering responsibilities from the ERDC team with minimal disruption to clients or operations.
- Championing GCP standardisation across the CMS practice, defining engineering standards and guiding the GCP practice maturity roadmap.
- Supporting the Deloitte Apprenticeship Programme and actively mentoring junior engineers and consultants.
- Recognised by senior leadership for aligning delivery approach with Deloitte's Engineering CRAFT principles.

KEY PROJECTS & ACHIEVEMENTS

GCP Project Vending Pipeline — Deloitte Cloud Managed Services

Engineering Lead

Deloitte Internal & External Clients | 2024–Present

- Initiated and led the end-to-end design and delivery of a fully automated GCP project vending pipeline, now in production across Deloitte's managed cloud estate.
- Integrated Okta group creation, user provisioning, and GitHub Actions workflows directly into the pipeline — eliminating manual steps and reducing human error.
- Developed reusable automation scripts deployable across multiple clients, saving over 6 hours per engagement on reporting and data gathering tasks.

95% faster provisioning (5 hrs → <1 hr)

~50% operational cost reduction

Fully automated OKTA + GitHub Actions integration

West Brom Building Society — GCP Environment Build

GCP Lead

West Bromwich Building Society | 2024–Present

- Sole GCP technical lead supporting West Brom's non-production GCP environment, enabling their address validation tool API and Google SecOps instance.
- Designed and implemented cross-cloud backup architecture, facilitating AWS-to-GCP backup pipelines for resilience and data sovereignty.
- Acted as primary technical advisor, translating client requirements into GCP-native solutions and managing all engineering delivery.

Multi-cloud (AWS + GCP) architecture

Google SecOps deployment

Client-facing technical leadership

Global Manufacturing — Azure Landing Zone & Hybrid Cloud

Azure Workstream Lead & Architect

Global Manufacturing Client | Deloitte

- Led Azure workstream and acted as Cloud Architect for enterprise-scale landing zone design based on Open Cloud Framework.
- Architected hybrid cloud design and implementation across multiple global business unit sites.
- Developed infrastructure as code using Terraform, deployed via Buildkite pipelines for repeatable, auditable delivery.

Enterprise Landing Zone

Global multi-site delivery

Terraform + Buildkite IaC

Large Retail Bank UAE — Digital Banking Platform

Azure Infrastructure DevOps Engineer

UAE Retail Bank | Deloitte

- Designed and implemented Azure cloud infrastructure for a new digital banking platform using Terraform and Buildkite pipelines.
- Delivered secure, scalable infrastructure to support digital banking services for a regulated financial institution.

Financial Services cloud delivery

Azure DevOps

Cloud Migration & Implementation Delivery Associate Manager

2016 – 2020

Accenture

Global Insurance Broker — Azure Cloud Migration

Data Centre Design Lead & Azure SME

Global Insurance Broker | Accenture

- Led the design and build of a large-scale, UK-first migration of financial applications and infrastructure to Microsoft Azure — one of the most significant cloud migrations in the UK financial services sector at the time.
- Delivery lead for end-to-end migration of ecommerce environment from on-premises datacentre to Azure.
- Led Azure Optimisation & Redesign project — assessed and implemented measures to reduce cloud spend, delivering approximately **£1.2 million in savings**.

£1.2M Azure cost savings

UK-first financial cloud migration

End-to-end delivery lead

UK Communications & Media — Cisco WebEx Enterprise Rollout

Technology Lead

UK Communications & Media Client | Accenture

- Led the technical release and enterprise-wide adoption of Cisco WebEx to **15,000 users**, managing cross-functional teams and stakeholder communications throughout.

15,000-user rollout

Technical delivery lead

Large UK Retail Bank — Cloud Enablement & Architecture

Delivery Lead & Cloud Architect

UK Retail Bank | Accenture

- Led cloud enablement for application stakeholders, developing cloud-native reference architectures and working directly with client architects on their cloud journey strategy.

Cloud-native reference architectures

Stakeholder cloud enablement
